COVID-19 vaccine available for children 6 months to 5 years old

Following approvals from the Centers for Disease Control and Prevention and Federal Drug Administration, Coastal Health & Wellness this week will begin offering COVID-19 vaccines for children ages 6 months to 5 years old.

CHW will have Moderna and Pfizer-BioNTech vaccines available Friday, June 24 for established patients in Texas City at 9850-C Emmett F. Lowry Expressway and in Galveston at 4700 Broadway, Suite F100.

The FDA has determined both vaccines are effective against severe disease while demonstrating excellent safety profile.

Parents and guardians may also request a COVID-19 vaccine for their children from their pediatrician, primary care provider or local pharmacy. If your child is eligible and has yet to receive their primary COVID-19 vaccine series, getting them vaccinated can help protect them from potential severe illness, hospitalization and death.

Galveston County Health District is excited to bring back its type 2 diabetes community education class, beginning July 18.

Join us and hear from our public health nurses as they talk about diabetes, including tips for managing and living with diabetes, why monitoring your blood glucose levels is important, laboratory monitoring and feelings you may have after a recent diabetes diagnosis.

Classes are held 5-6 p.m. at the health district, 9850-B Emmett F. Lowry Expressway, WIC classroom, in Texas City. Future classes are scheduled for July 18, Aug. 15, Sept. 19, Oct. 17, Nov. 14 and Dec. 12. No registration is required.

Tips to beat the heat this summer

Everyone enjoys a little time in the sun, but many don't consider the potential dangers that can come with spending just a few minutes in the sun unprotected.

Extreme heat occurs when temperatures reach very high levels or when the combination of heat and humidity causes the air to become oppressive - and causes more deaths each year than hurricanes, lightning, tornadoes, earthquakes and floods, all combined.

Adults 65 and older, children younger than 4, people with existing medical problems such as heart disease and those without access to air conditioning are the most at risk.

It's important to stay hydrated, wear sunscreen and take breaks indoors or in the shade. Learn more about staying cool this summer.

We want to hear from you, CHW patients!

Coastal Health & Wellness launched a new patient satisfaction survey, and we want to hear from you!

The survey takes about 5-7 minutes to complete and all participation is voluntary and anonymous.

When you take a few minutes to tell us more about your experience, it helps us continue to improve our patient care, and your experience, at our CHW Texas City and Galveston clinics.

You can complete the survey onsite or following your visit. You'll also notice patient satisfaction survey posters throughout the clinic with a QR code you can scan with your smartphone.

Stay in touch with Patient Portal

Have you heard about our new patient portal? It's an easy way to get in touch with your Coastal Health & Wellness team.

- Request and view appointments
- Send a message to your medical provider and CHW team
- View a summary of your health record and lab results
- Request prescription refills
- Pay statements

Update on Employee Engagement Survey
Submitted by Chantelle Smith**

Update on Employee Engagement Survey

In collaboration with the TACHC operations department, we finalized the CHW Employee Engagement Survey meeting the Governing Board's request of 3rd party facilitation, limited control by HR or members of GCHD/CHW leadership, and anonymity. The survey starting and closing dates are June 6th thru June 30th, respectively. TACHC will provide us with weekly updates to share the progress on the number of staff members that have completed the survey. Once the information from the survey has been organized and compiled using various metrics, the information will be reviewed to ensure a high level of anonymity is consistent throughout the responses. We will then receive a PowerPoint presentation from TACHC with the results.
